

Substance Abuse Northwest Indiana residents are more likely to binge drink (consume five or more alcoholic beverages on a single occasion) than adults nationwide.

Cirrhosis/Liver Disease Deaths

The Northwest Indiana death rate for cirrhosis/liver disease is higher than the national rate, attributable to a comparatively high rate in Lake County.

% Binge Drinker	17.7	13.7	6
% Drinking & Driving in Past Month	4.3	2.8	
% Illicit Drug Use in Past Month	1.7	3.3	2
